Denny Stewart Training Center

3121 Dewitt Ave.

Mattoon, Il. 61938

Submit enrollment to:

<https://www.glocktraining.com/Schedule.aspx> Please see instructions below.

Many departments carry Glock pistols; they are a fine sidearm. This course is going to teach you how to diagnose problems with the Glock handgun when they happen. This course will cover the following topics:

Safe action system design, function and safeties, unloading and clearing, field stripping and reassembly, detail disassembly and reassembly of slide, detail disassembly and reassembly of receiver, fires control components configuration and engagement. Multiple practice disassembly and reassembly of entire pistol, options/alternate parts offered, sights and tools, diagnostics and trouble shooting guides.

Students will have to take a written exam with an 80% score to pass. Don't let that scare you off, I've taken this course myself about four times, you will do fine. You get so much practice taking the guns apart and putting them back together that you will have it down by the time a test comes around.

Enrollment Information

For enrollment, please go to www.glocktraining.com/Schedule.aspx. At this location, simply look up the class you want (Mattoon, October 2025) From here fill out the online form. If you are an MTU 13 member, the fee will be billed to me. **If you are outside of MTU 13, then you will need to pay a registration fee of \$250.00. Again, if you are a member of MTU 13, or an associate member, there is no fee, as I will be billed directly.** Please do not register directly with me as Glock wants everyone to register with them.
