The objective of this course is for supervisors to be able to not only run a cohesive FTO cadre but also maintain training standards within the department using the San Jose Method.

Supervisors will be able to use the San Jose grading system and adapt it to their individual department needs. Supervisors will be shown various grading systems used by other area departments and how to use them within their own department.

Supervisors will understand how to assist FTO's in maintaining an up to date and relevant training system and be able to fill out all the required paperwork for overseeing the successful function on the FTO program.

Supervisors will discuss issues that have arisen in the past during training and possible issues for the future, as well as how to overcome and solve those issues.

Observed Mandates Include:

Consti. Use of LE Authority

Human Rights

Legal Updates

Procedural Justice

Officer Jeremy Hale is a police veteran with the Urbana Police Department and has been a field training officer since 2011. In addition to his normal patrol duties, he is a crime scene technician, specializing in fingerprint recovery and photography and is a member of the METRO/SWAT team for Champaign County. Prior to joining the Urbana Police Department, he worked at the U.S. Army Corps of Engineers and designed biochemical warfare sensors for critical infrastructures. He has teaching experience through his previous employment and both graduate and undergraduate work. Jeremy obtained his Bachelor's degree in biology from Northwestern University in Evanston, Illinois and completed his Master's Degree at University of Illinois at Urbana-Champaign in biochemistry.

This course is funded by the Illinois Law Enforcement Training Standards Board.
